AUTO DETAILING

5-Day Master Certification Program

AUTO DETAIL TRAINING

We are committed to teaching you the skills and knowledge necessary to succeed in the field of auto detailing. Our comprehensive program covers everything from the basics of car washing to advanced techniques for polishing and ceramic coating. You'll learn about the different types of products and equipment used, as well as the proper methods for using them. Our experienced instructors will provide you with hands-on training and personalized training to help you become a skilled professional.

TOPICS TAUGHT:

- INTERIOR DETAILING
- EXTERIOR DETAILING
- ENGINE BAY CLEANING
- PAINT CORRECTION
- CERAMIC COATING

PAINT CORRECTION

1-Day Certification Program

PAINT CORRECTION COURSE

Master the art of professional paint correction with our in-depth training course. You'll gain hands-on knowledge of various colors of vehicles and learn how to recondition all types of paint flaws. The course covers proper use of abrasive materials to safely eliminate imperfections and textures, while reviewing the proper polishing equipment for every job.

With expert instruction, you'll sharpen your paint correction skills and build a strong foundation for our advanced Ceramic Coating course. Class sizes are small to ensure personalized, focused hands-on training.

LEARN TO REPAIR:

- OXIDATION
- HOW TO PREP FOR CERAMIC COATING
- EXTERIOR PAINT POLISHING
- CLEAR COAT RESCUE

CERAMIC COATING

1-Day Certification Program

HANDS-ON TRAINING FOR OUR CERAMIC COATING SYSTEM

Protect your customer's investment with ceramic coating. Ceramic coating creates a long-lasting, hydrophobic barrier that shields your vehicle's paint from UV rays, dirt, road grime, and environmental damage. It enhances gloss, repels water, and makes washing your car easier than ever. With proper application, ceramic coatings can keep your vehicle looking showroom-new for years — all while adding serious depth and shine to your finish.

LEARN TO REPAIR:

- EVALUATING PAINT SURFACES
- PROPER PREPARATION
- APPLICATION TECHNIQUES
- CURING AND AFTER CARE
- TROUBLESHOOTING
